

### REMARKS

The present Amendment is being filed to effectuate Applicants' previous change in the title. In particular, in Applicants' Amendment of March 27, 2006, Applicants changed to the title of the present application to:

-- SYSTEMS FOR FABRICATING OPTICAL MICROSTRUCTURES USING A  
CYLINDRICAL PLATFORM AND A RASTERED RADIATION BEAM --.

Unfortunately, the Notice of Allowance does not reflect this change in the title. Accordingly, Applicants respectfully request the title be changed pursuant to the present Amendment, and that the issued patent reflect the correct title.

The present Amendment is also being filed to correct a typographical error in the Examiner's Amendment, and to request that Applicants' Eighth Supplemental Information Disclosure Statement be considered by the Examiner.

In particular, the Examiner's Amendment amended Page 1, line 2 of the specification to insert the appropriate application serial number. However, a typographical error was made in that Serial No. 10/661,916, the serial number of the present application, was inserted. Accordingly, the present Amendment corrects the serial number to be concurrently filed Serial Number 10/661,917.

Applicants also electronically filed an Eighth Supplemental Information Disclosure Statement (November 20, 2006), which is the date of mailing of the Notice of Allowance. A copy of the Eighth Supplemental Information Disclosure Statement is attached hereto. Applicants respectfully request consideration of the Eighth Supplemental Information Disclosure Statement and request the Examiner to return the initialed Form PTO-1449 to indicate consideration by the Examiner.

In view of the above, Applicants respectfully request entry of the present Amendment, and passing the application to issue.

Respectfully submitted,

Mitchell S. Bigel  
Registration No. 29,614  
Attorney for Applicants
